Vyralify — Main Website: Final Landing Page Spec

For: Development team | **Source:** the uploaded Vyralify Website Specification (kept in full) plus the 7 conversion rules | **Status:** final

How to read this doc. Every line of the uploaded Website Specification is kept exactly as written: colors, sizes, copy, numbers, components. The 7 conversion rules are applied on top, and each addition is marked **[+ Rule N]**. Nothing from the draft was removed. A short list of things to double-check before launch is in section 8; it removes nothing either.

---

1. Objective and strategy

Business goal: maximum revenue from a freemium product. Signup is open to everyone at launch (no waitlist). This is the main Vyralify website, the page where people sign up and buy.

The page has one job: get the visitor to click **Start Free**. Revenue comes from Free users who feel the product's value and upgrade to Pro or Elite. Two metrics: visitor to Free signup (this page), and Free to paid (the product, prepared by the pricing section).

Two audiences, one page: beginners with no page who want to start one to earn, and existing creators who want to grow, automate and monetize faster.

Positioning: one platform that takes a creator from zero to first sale. Brand promise: *Everything You Need to Build, Grow & Monetize Your Instagram Business.*

---

2. The 7 conversion rules and where the page applies them

#	Rule	How the page applies it	Sections
1	**Hero rule:** in 5 seconds the visitor knows what it is, who it is for and what to do. Risk removed next to the button	Headline says what, subheading and the beginner line say who, the buttons say what next. Beginner line: *No page yet? We'll help you pick a niche and start.* Trust text under the buttons: *Free plan · No credit card required*	2
2	**Outcomes over features:** result first, tool second	Every feature is paired with the result it gives. Each spotlight and card	4, 7 to 12

#	Rule	How the page applies it	Sections
		gets an outcome line above its feature list	
3	**Dual audience:** beginners and existing creators each see their own path	Nav links For Beginners and For Creators, hero beginner line, audience chips, an interactive 'Who is this for?' toggle with the two path cards, and the chosen path carried into sign-up	1, 2, 4, 7, 10, 13
4	**Real product demonstration:** real software, no stock mockups or decorative icons	Every screenshot, mockup and floating card is built from the real product screens and components. Watch Demo opens an interactive demo: AI chat prompt, data-backed response, action button	2, 5, 7 to 12
5	**Differentiators:** AI on real Instagram data, Discover & Create as the daily-use hook, Automation as the earn-while-you-sleep payoff, and the same outcome angle for the rest	One spotlight each with a differentiator line and the sharpest outcome	8 to 12
6	**Pricing psychology:** Pro Recommended with a neon green border, Free visible, Elite as the anchor, explicit numbers	Pro marked Recommended; Free has a full card and a Start Free link above the cards; Elite shown at full size next to Pro; every feature line carries its number	14

#	Rule	How the page applies it	Sections
7	**Free mini tool (post-launch):** a no-signup tool for SEO traffic and qualified leads	Specified in section 7	7

---

3. Global rules (apply to every section)

From the uploaded specification (unchanged)

- **Theme:** Dark hero + white body alternating pattern. Dark sections: bg #0A0A0A. White sections: bg #FFFFFF or #F9F9F9.
- **Green accent:** #23E598 (primary CTA, highlights, active states)
- **Typography:** Inter throughout. Headlines bold (700), body regular (400).
- **Max content width:** 1200px, centered, with 80px side padding on desktop, 40px tablet, 20px mobile.
- **Primary CTA everywhere:** "Start Free →" — green pill button, black text, no exceptions.
- **Secondary CTA:** "See How It Works" or "Watch Demo" — ghost/outline style.
- **No credit card required** microcopy always appears below primary CTA.
- **Navbar stays sticky** — always visible on scroll.
- **Smooth scroll** between sections.
- **All animations:** subtle, purposeful, max 300ms. No bounce. No excessive motion.

Added by the conversion rules

- **[+ Rule 1]** The trust text under primary buttons in the hero, pricing and final CTA starts with the exact words *Free plan · No credit card required*.
- **[+ Rule 2]** Copy rule: lead with the result, then name the tool. Example: not "AI assistant" but "Your personal Instagram growth co-pilot that analyzes your own metrics".
- **[+ Rule 3]** Wherever a section speaks to one audience, it carries a small chip: For Everyone, For Creators, For Beginners or For Scaling Creators.
- **[+ Rule 4]** Every screenshot, phone mockup and floating card comes from the real product UI. No stock images, no decorative icons standing in for the product.
- **[+ Motion]** All animation respects the device's reduce-motion setting.
- **[+ Accessibility]** Visible focus ring on every interactive element; menus, accordions, toggles and the demo work with a keyboard.

---

4. Section-by-section spec

01. HEADER (Announcement Strip + Navbar)

Announcement Strip

- Height: 40px
- Background: #23E598 (green)
- Text color: #000000
- Content: "🚀 Vyralify is live — Build, Grow & Monetize your Instagram page. Start free today →"
- Arrow link: clicks to Hero CTA / signup
- Dismissible: X button on right side, preference saved to localStorage
- Mobile: same, text truncates gracefully, still dismissible

Navbar

- Height: 64px
- Background: #0A0A0A (dark, matches hero)
- Border bottom: 1px solid #1F1F1F
- Sticky: yes — stays on top on scroll, slight blur backdrop when scrolled (backdrop-filter: blur(12px), bg: rgba(10,10,10,0.85))

Layout (left to right): [Vyralify Logo] [Product ▾] [Pricing] [For Creators] [For Beginners] [Log In] [Start Free →]

- Logo: Vyralify wordmark + V icon, white, 28px height
- Nav links: 14px, #A0A0A0, hover: #FFFFFF, transition 150ms
- Product dropdown: on hover/click, a mega dropdown showing all 6 modules with icon + 1-line description
- Log In: ghost, white text, no border
- Start Free →: green pill, black text, 36px height, 20px side padding

Product Dropdown content

- 🤖 Vyralify AI — Your 24/7 Instagram growth co-pilot
- 🔎 Discover & Create — Find what works, create what wins
- 🚀 Page Builder — Build your page the right way
- ⚡ Instagram Automation — Turn engagement into leads
- 💰 Store & Commerce — Monetize your audience
- 🏠 Dashboard — Track everything in one place

Mobile Navbar

- Hamburger icon (right side) opens full-screen nav overlay
- Overlay: dark bg, stacked links (large, 18px), Start Free CTA at bottom
- Close X top-right

[+ Rule 3] For Creators scrolls to the *I already have a page* card in Section 13 and For Beginners scrolls to the *Starting from scratch* card, each briefly highlighted (300ms outline). Each dropdown item scrolls to its own spotlight (Dashboard scrolls to Section 5).

02. HERO SECTION

- Background: #0A0A0A (dark)
- Min height: 100vh

- Layout: centered, single column

Eyebrow

- Text: “BUILD. GROW. MONETIZE.”
- Style: 12px, 600 weight, letter-spacing: 0.15em, #23E598, uppercase
- Decoration: subtle green dot before and after text, or thin horizontal lines flanking it

Headline

- Text: “Everything You Need to Build, Grow & Monetize Your Instagram Business”
- Size: 56px desktop / 40px tablet / 32px mobile
- Weight: 700
- Color: #FFFFFF
- “Instagram Business” — last two words rendered in #23E598
- Line height: 1.15
- Max width: 800px, centered

Subheading

- Text: “Build and grow your Instagram with Vyralify AI — discover what to post, create content that performs, automate your DMs, and turn your attention into real revenue.”
- Size: 18px desktop / 16px mobile
- Weight: 400
- Color: #A0A0A0
- Max width: 600px, centered
- Margin top: 20px

[+ Rule 1] Beginner line, directly under the subheading: *No page yet? We'll help you pick a niche and start.* 15px, white at 85%, with a small arrow. It scrolls to the beginner card in Section 13. This is what hooks a beginner in the first screen.

CTA Row: [Start Free →] [Watch Demo ▶]

- Primary: green pill, black text, 44px height, 28px side padding
- Secondary: ghost, white border, white text, same height
- Gap: 16px
- Margin top: 32px
- **[+ Rule 4]** Watch Demo opens the interactive product demo (the same scripted AI demo as Section 8: prompt, data-backed response, action button) in a modal, with Start Free inside it.

Below CTA Microcopy

- Text: “Free plan · No credit card required · Cancel anytime” *(the draft's 'Free to start' opening is replaced by the Rule 1 wording 'Free plan')*
- Size: 13px, #555555
- Margin top: 12px

Main Visual (Product Dashboard Mockup)

- Large dashboard screenshot/mockup of the Vyralify Home screen
- Shown in a subtle dark device frame (not a browser chrome — just rounded corners + shadow)
- Width: 100% of content area, max 1000px
- Margin top: 48px
- Slight perspective tilt (3D CSS transform: rotateX(8deg)) for premium feel — straightens on scroll
- Around the main mockup, 3 floating element cards (appear with staggered fade-in animation):
    - Top-left: "✨ What should I post next?" — AI suggestion bubble
    - Top-right: "+18.4K followers this month" — growth card (green badge)
    - Bottom-right: "New Sale: ₹499 — Digital Product" — sale notification card
- Floating cards: --bg-surface (#111111) background, green left border, subtle shadow
- **[+ Rule 4]** The dashboard and the three cards are captured from the real Home screen and real product components, not drawn separately.

Background Treatment

- Very subtle green radial gradient behind the headline (not obvious — just a glow at 5% opacity)
- No particles, no excessive decoration
- Grid dot pattern at very low opacity (5%) across the dark area — adds texture without noise

Mobile Hero

- Headline: 32px
- Dashboard mockup: full width, no tilt
- Floating cards: hidden on mobile (too cluttered)
- CTAs: stacked vertically, full width

[+ Rule 1] 5-second check. Above the fold the visitor can answer three things: *what is it* (headline), *who is it for* (subheading plus beginner line), *what do I do* (Start Free, with the risk text under it).

03. TRUST STRIP

- Background: #FFFFFF
- Padding: 48px 0
- Border top/bottom: 1px solid #EBEBEB

Label

- Text: "Trusted by creators and page owners worldwide"
- Size: 13px, #999999, centered, uppercase, letter-spacing: 0.1em

Marquee Row

- Horizontally scrolling, infinite loop, left direction, 40s duration
- Pause on hover
- Items: creator @handles with avatar (24px circle) + username + small category chip
- Each item styled as a compact pill card: [Avatar] @handle [Creator] "2.4M views"
- Gap between items: 32px
- Fade edges: gradient mask on left and right edges of the marquee container (transparent → white)

- Duplicated set for seamless loop

Metric Row (below marquee): 4 stats, equal width, separated by vertical dividers

10K+	900M+	1M+	₹50L+
Creators	Combined Views	Pieces of Content	Creator Earnings

- Number: 28px, 700, #0A0A0A
- Label: 13px, #666666
- Dividers: 1px #EBEBEB, 40px height centered

[+ Rule 1] Safety row, directly below the metric row. Four items, each with a line icon, a bold short title and one line, so the fear of losing the account is removed before the visitor scrolls on:

Item	Line
Official Instagram login	Connect through Meta's own login.
You stay in control	Nothing posts or messages unless you set it up.
Built for Meta's limits	Automation is designed to follow Meta's messaging limits.
Your data, your choice	Export or delete your data anytime.

- Mobile: the metric row and the safety row are each 2 by 2.

04. PROBLEM & SOLUTION

- Background: #FFFFFF
- Padding: 100px 0

Section Label: “THE PROBLEM” — 12px, #23E598, uppercase, letter-spacing: 0.15em, centered

Headline: “Most creators are doing everything wrong — and don't know why it's not working.” 40px desktop / 30px mobile, 700, #0A0A0A, centered, max-width 700px

Problem Cards (3 cards, horizontal row). Each card:

- Background: #F9F9F9
- Border: 1px solid #EBEBEB
- Radius: 12px
- Padding: 28px
- Icon: 40px, simple line icon in red-soft (#FF4D4F)
- Title: 18px, 600, #0A0A0A
- Description: 14px, #666666, 3-4 lines

Card 1: No System. Icon: broken puzzle piece. Title: “Posting randomly and hoping something goes viral”. Desc: “No strategy, no content system, no understanding of what actually drives growth — just guessing every single day.”

Card 2: No Direction. Icon: compass with X. Title: “10 different tools, zero clarity on what's working”. Desc: “Analytics here, content ideas there, scheduling somewhere else — scattered across apps that don't talk to each other.”

Card 3: No Revenue. Icon: empty wallet. Title: “Thousands of followers, no way to monetize them”. Desc: “The audience is there but there's no system to turn views, comments and DMs into actual income.”

Transition Arrow / Divider

- Large “→” or “↓” in green (#23E598), 48px, centered
- Below it: “There's a better way.”
- 20px, 600, #0A0A0A

Solution Statement

- Headline: “Vyralify gives you the complete system.”
- 36px, 700, #0A0A0A, centered
- Subtext: “One platform. AI-powered. Built specifically for Instagram creators and page owners.”
- 16px, #666666, centered, max 560px

[+ Rule 3] Both audiences, one line each, under the three cards: *Just starting? The hardest part is knowing where to begin. Vyralify starts with your niche.* and *Already growing but stuck? Vyralify shows what's working on your page and what to do next.*

[+ Rule 2] Outcome line, under the solution subtext, 18px, 600: **Know what to post. Reply automatically. Get paid.**

05. ONE CONNECTED CREATOR SYSTEM

- Background: #0A0A0A (dark)
- Padding: 100px 0

Section Label: “THE SYSTEM” — 12px, #23E598, uppercase, letter-spacing: 0.15em, centered

Headline: “Everything works together. Nothing works in isolation.” 40px, 700, #FFFFFF, centered, max 700px

Subheading: “Vyralify is not a collection of tools. It's one connected system where every module feeds the next.” 16px, #A0A0A0, centered, max 560px

Journey Flow Visualization. Horizontal flow on desktop, vertical on mobile:

🚀 BUILD → 🔎 DISCOVER → ✍️ CREATE → ⚡ AUTOMATE → 💰 MONETIZE → 📊 MEASURE

Each step:

- Icon (40px, green)
- Step name (14px, 600, white)
- 1-line description (12px, #666666)
- Connected by a dotted green line between steps

On hover of each step: expands slightly, shows a mini tooltip/card with a screenshot of that module.

[+ Rule 2] One-line descriptions for the six steps (the draft sets the style, these are the words):

Step	Description
Build	Set up your niche, profile and audience.
Discover	See what's working in your niche.
Create	Turn it into hooks, scripts and captions.
Automate	Reply to comments and DMs automatically.
Monetize	Sell from one link in your bio.
Measure	Track growth and revenue in one place.

[+ Rule 4] The tooltip screenshots are real module screens. On touch devices (no hover), tapping a step opens the same card; steps are also keyboard operable. On mobile each step expands in place, one at a time.

Below the flow:

- "✨ Vyralify AI sits across all of it — learning what works for your specific page and telling you what to do next."
- 14px, #A0A0A0, italic, centered
- AI sparkle icon before the text

Connection Lines (visual treatment): The arrows between steps pulse with a subtle green animation (keyframe: opacity 0.4 → 1 → 0.4, 2s loop) — implies data flowing between modules. Subtle, not distracting.

[+ Rule 5] Example chain, caption under the flow: *Save a trend in Discover. Turn it into a script in Create. Send your product link by DM in Automation. See the sale on your Dashboard.*

06. RESULTS & TESTIMONIALS

- Background: #FFFFFF
- Padding: 100px 0
- Status: HIDDEN until genuine proof exists — placeholder structure only, no fake data

Section Label: "RESULTS" — 12px, #23E598, uppercase

Headline: "Real creators. Real growth. Real revenue." 40px, 700, #0A0A0A, centered

Subheading: "See what happens when creators stop guessing and start using a system." 16px, #666666, centered

2x2 Video/Image Grid

- 4 large cards in a 2x2 grid
- Each card: rounded (16px), overflow hidden

- Content: video thumbnail or image with play button overlay
- Caption overlay (bottom of card, gradient dark bg):
    - Creator name + handle
    - Result stat: “+142K followers in 60 days” or “₹2.4L earned in first month”

Testimonial Cards (below grid). 2x3 grid of compact cards. Each card:

- Avatar (40px circle) + @handle + platform badge
- Result stat: bold, green, “2.4M views” or “₹18,400 earned”
- Quote: 2-3 lines, #444444, italic
- Border: 1px #EBEBEB, radius 12px, padding 20px

Placeholder State (before real proof)

- This entire section is commented out in the code
- A simple internal note: “// RESULTS SECTION — activate when real testimonials available”
- Do NOT show empty or fake cards

[+ Placement] Position in the page: right after Section 5 (the locked order). While it is hidden, the page flows from Section 5 straight to Section 7.

07. BENEFITS MODULES (6 Cards)

- Background: #F9F9F9
- Padding: 100px 0

Section Label: “WHAT'S INSIDE” — 12px, #23E598, uppercase

Headline: “One Platform. Everything You Need.” 40px, 700, #0A0A0A, centered

Subheading: “From building your first page to automating your DMs and selling your products — every tool lives right here.” 16px, #666666, centered, max 580px

Cards (draft: 2x2 grid desktop for the 4 core cards, 1 column mobile; with the 2 added cards the desktop grid is 3 by 2). Each card:

- Background: #FFFFFF
- Border: 1px solid #EBEBEB
- Radius: 12px
- Padding: 28px
- Real product screenshot (top, 16:9 crop, radius 8px)
- Module icon (20px) + Module name (16px, 600, #0A0A0A)
- Description: 14px, #666666, 2 lines
- Audience tag chip: “For Everyone” / “For Creators” / “For Beginners” (bottom)
- Hover: translateY(-4px), shadow appears, border lightens

Card 1: 🤖 Vyralify AI. Screenshot: AI chat interface with a real-looking response. Description: “Your 24/7 growth co-pilot — tells you what to post, why content worked, and what to do next.” Tag: For Everyone

Card 2: 🔎 Discover & Create. Screenshot: Trending content feed + hook generator output. Description: “Find viral formats, trending audio, and winning hooks — then generate scripts and captions in seconds.” Tag: For Creators

Card 3: ⚡ Instagram Automation. Screenshot: Automation setup screen with DM flow preview. Description: “Turn comments and DMs into leads and sales automatically — set it up once, earn while you sleep.” Tag: For Everyone

Card 4: 💰 Store & Commerce. Screenshot: Link-in-bio storefront on mobile. Description: “Sell digital products, build your storefront, and turn your audience into recurring revenue.” Tag: For Scaling Creators

[+ Rule 3, 5] Card 5: 🚀 Page Builder. Screenshot: Niche selector with category cards. Description: “Build the right page from day one — pick a niche, set up your bio and positioning, or audit the page you already have.” Tag: For Beginners

[+ Rule 5] Card 6: 🏠 Dashboard. Screenshot: Home screen. Description: “See followers, views and revenue in one place, with AI suggestions on what to do next.” Tag: For Everyone

Bottom of Section

- “See Everything Inside →” — text link, green, centered, 14px
- Links to the Pricing section or a dedicated features page (opens the comparison table in Section 14)

08. VYRALIFY AI SPOTLIGHT

- Background: #0A0A0A (dark)
- Padding: 100px 0
- **Layout: Two-column (50/50), left copy, right visual**

Left: Copy

- Label: “VYRALIFY AI” (green, uppercase, 12px)
- Headline: “Your 24/7 Instagram growth expert.” 36px, 700, #FFFFFF
- Subheading: “Stop guessing what to post, why a Reel flopped, or how to grow. Vyralify AI knows your page inside out — and tells you exactly what to do next.” 16px, #A0A0A0
- Feature list (4 bullet points with green checkmark icons):
    - ✓ Analyzes your actual content, audience, and competitors
    - ✓ Tells you what to post, when to post, and why
    - ✓ Explains why each Reel worked or underperformed
    - ✓ Suggests the exact next action — and links you straight there
- CTA: “Try Vyralify AI Free →” (green pill). Below: “No credit card required”

Right: Visual. Large AI chat mockup (not a generic ChatGPT UI):

- Vyralify-branded chat interface
- Shows a real-looking multi-turn conversation: User: “Why did my last Reel underperform?” AI: [Detailed, data-specific response with bold highlights, bullet points, and at the bottom: action buttons “Create Similar Reel” + “View Analytics”]

- The response references real-looking numbers (“Your last Reel got 12K views vs your 34K average”)
- Chat input bar visible at bottom: “Ask Vyralify anything...”
- Slight glow behind the mockup (green, radial, low opacity)

Mobile: Stacked: visual on top, copy below

[+ Rule 5] Differentiator line, under the subheading, in a small green-outlined chip: **Not generic AI. It works from your real Instagram data.**

[+ Rule 2] Outcome line, above the feature list: *Know exactly what to post, and why, from your own numbers.*

[+ Rule 4] Interactive demo. The chat mockup is clickable. Three prompt chips sit under it: *Why did my last Reel underperform? · What should I post today? · What should I fix on my page?* Selecting a chip shows the question, a short typing indicator (about 600ms), then a scripted answer with bold highlights, bullets, example numbers and the two action buttons. The action buttons show a small note (*In the app this opens Create with this idea ready*) and a Start Free link. The input bar is locked in the demo with the tooltip *Create a free account to ask your own questions.* The demo is scripted and static (no live AI calls from the website). The same demo opens from Watch Demo in the hero and the final CTA.

[+ Plan note] small grey text under the feature list: Free includes basic Q&A. Pro adds deep analysis and strategy plans.

09. DISCOVER & CREATE SPOTLIGHT

- Background: #FFFFFF
- Padding: 100px 0
- **Layout: Two-column, LEFT visual, RIGHT copy (alternating from AI spotlight)**

Right: Copy

- Label: “DISCOVER & CREATE” (green, uppercase, 12px)
- Headline: “Find what's going viral. Create it in seconds.” 36px, 700, #0A0A0A
- Subheading: “Vyralify scans your niche in real-time — trending formats, winning hooks, viral audio — and turns what's working into ready-to-post content for your specific page.” 16px, #666666
- Feature list:
    - ✓ Real-time trending content feed — filtered by your niche
    - ✓ Hook Generator with 50+ proven hook structures
    - ✓ Full Reel scripts, captions, and CTAs — AI-generated
    - ✓ 30-Day Content Planner — never run out of ideas again
- CTA: “Start Creating Free →” (green pill)

Left: Visual. Split screenshot showing:

- Top half: Trending content discovery feed with niche filters
- Bottom half: Hook Generator output showing 6 hook variations
- Subtle connecting arrow between the two panels (“Discover → Create”)

Mobile: Stacked: visual on top, copy below

[+ Rule 5] Daily-use hook line, above the feature list: *Open it every day to see what's working in your niche, then make your next post in minutes.*

[+ Rule 3, 4] Under the visual, small chips for the 8 launch niche categories: Business & Money, Self-Improvement, Health & Fitness, Fashion & Beauty, Cars & Automotive, Travel & Lifestyle, Entertainment, Sports.

[+ Plan note] Free has limited filters, 1 tracked competitor and a 7-day planner. Pro unlocks the full set.

10. PAGE BUILDER SPOTLIGHT

- Background: #F9F9F9
- Padding: 100px 0
- **Layout: Two-column, LEFT copy, RIGHT visual**

Left: Copy

- Label: "PAGE BUILDER" (green, uppercase, 12px)
- Headline: "Build the right page from day one." 36px, 700, #0A0A0A
- Subheading: "Whether you're starting from scratch or optimizing an existing page — Vyralify's AI guides you through niche selection, positioning, bio, and setup so your page is built to grow from the very first post." 16px, #666666
- Feature list:
    - ✓ AI-powered niche selector with profitability scores
    - ✓ Bio generator tailored to your niche and goals
    - ✓ Automatic page audit with specific fix recommendations
    - ✓ Manage multiple pages from one dashboard
- Special callout (small highlighted card within copy): "🚀 Perfect for beginners — no experience needed. Vyralify walks you through every step." Background: green-subtle (#23E598 at 8% opacity), green left border, 12px, #1DC884
- CTA: "Build Your Page Free →" (green pill)

Right: Visual. Phone mockup showing:

- Niche Selector screen with category cards visible
- Below it (floating): a Page Health Score card ("Page Health: 74/100") with 3 recommendation chips

[+ Rule 3] Audience chips: *For Beginners* and *For existing pages*, shown above the headline, so both audiences see themselves here.

[+ Rule 2] Outcome line, above the feature list: *Know your niche, your bio and your next move before you post.*

11. INSTAGRAM AUTOMATION SPOTLIGHT

- Background: #0A0A0A (dark)
- Padding: 100px 0

- **Layout: Two-column, LEFT visual, RIGHT copy**

Right: Copy

- Label: “INSTAGRAM AUTOMATION” (green, uppercase, 12px)
- Headline: “Turn every comment and DM into a sale. Automatically.” 36px, 700, #FFFFFF
- Subheading: “Set up once. Then watch Vyralify automatically reply to comments, deliver product links via DM, and convert your followers into customers — while you're asleep.” 16px, #A0A0A0
- Feature list:
    - ✓ Comment → DM automation (someone comments, gets a DM instantly)
    - ✓ Keyword triggers — set words that unlock automated responses
    - ✓ AI Auto-Conversations that qualify and convert leads
    - ✓ Full conversation logs — always in control
- Urgency/proof line: “Creators using Vyralify Automation never miss a lead — even at 3am.” 13px, #555555, italic
- CTA: “Set Up Automation Free →” (green pill)

Left: Visual. Phone frame showing a DM conversation:

- User posted: “Comment 'FREE' for the guide!”
- Follower comments: “FREE”
- Auto-DM appears instantly: “Hey! Here's your free guide 👇 [link]”
- Then: “💳 New Sale: ₹299 — Instagram Growth Guide” notification card floats above the phone
- Green glow behind the phone mockup

[+ Rule 5] Earn-while-you-sleep flow strip, above the phone: **Comment** → **Auto DM** → **Product delivery** → **Sale.** One line under it: *Set it up once. It keeps working while you sleep.*

[+ Plan note] Automation is a Pro feature. Under the CTA: *Start free, unlock Automation on Pro.* A small **Pro** tag sits next to the label. Safety line under the feature list: *Designed to follow Meta's messaging limits. You choose what runs, and you can take over any AI conversation at any time.*

12. STORE & MONETISATION SPOTLIGHT

- Background: #FFFFFF
- Padding: 100px 0
- **Layout: Two-column, LEFT copy, RIGHT visual**

Left: Copy

- Label: “STORE & COMMERCE” (green, uppercase, 12px)
- Headline: “Turn your audience into a real business.” 36px, 700, #0A0A0A
- Subheading: “Vyralify gives you a complete link-in-bio storefront to sell digital products, services, and subscriptions — directly from your Instagram bio. No separate tools. No monthly Shopify bill.” 16px, #666666
- Feature list:
    - ✓ Link-in-bio storefront — one link, everything you sell
    - ✓ Sell digital products, guides, courses, and services
    - ✓ Automated delivery — product sent instantly after payment

    - ✓ Revenue tracking and sales analytics built in
- Revenue callout card: "💰 Average Vyralify creator earns their first ₹ within 7 days of setting up their store." Green subtle bg, green left border (placeholder stat — replace with real data when available)
- CTA: "Set Up Your Store Free →" (green pill)

Right: Visual. Phone mockup showing the link-in-bio storefront:

- Creator profile header (avatar + name + bio)
- 3 product cards below (visible, scrollable):
    - "Instagram Growth Guide — ₹299"
    - "Reel Hook Templates — ₹199"
    - "1:1 Coaching Call — ₹1,999"
- Floating revenue notification: "Total Revenue this month: ₹24,800 ↑6.2%"

[+ Rule 2, 5] Outcome line, above the feature list: *One link in your bio, and your audience can buy from you today.*

[+ Rule 5] Added feature line (fifth bullet): ✓ Add ready-to-sell offers from the Winning Products library. The storefront link is shown in the mockup as vyralify.io/u/username.

[+ Plan note] Free includes 1 product. Pro unlocks unlimited products and the full library.

13. HOW IT WORKS + TWO STARTING PATHS

- Background: #0A0A0A (dark)
- Padding: 100px 0

Section Label: "HOW IT WORKS" — 12px, #23E598, uppercase, centered

Headline: "Start in minutes. See results fast." 40px, 700, #FFFFFF, centered

[+ Rule 3] Who is this for? toggle, directly under the headline: a segmented control with two options, **Starting from scratch** and **I have a page**, and the line *Who is this for? Pick your starting point.* On desktop both cards stay visible side by side and the chosen card is highlighted. On mobile the toggle swaps which card is shown (beginner first). The nav links For Beginners and For Creators set this toggle.

Two Path Cards (side by side, equal width)

Card 1: 🚀 Starting from scratch. Background: #111111, green border (1px), radius 16px, padding 32px

- Title: "I want to build a page from scratch"
- Subtitle: "Perfect if you have no Instagram page yet"
- Steps (numbered, stacked):
    a. Create your Vyralify account (free)
    b. Choose your niche using our AI selector
    c. Set up your page positioning and bio
    d. Discover trending content and create your first posts
    e. Set up automation and store to start earning
- CTA at bottom: "Start Building →" (green pill)

Card 2: 📱 Already have a page. Background: #111111, white/subtle border, radius 16px, padding 32px

- Title: “I already have an Instagram page”
- Subtitle: “Perfect if you want to grow and monetize faster”
- Steps (numbered, stacked):
    a. Connect your existing Instagram page
    b. Run your free page audit (see what to fix)
    c. Get AI-powered content recommendations
    d. Set up DM automation to capture leads
    e. Launch your store and monetize your audience
- CTA at bottom: “Connect My Page →” (white outline pill)

Below Both Cards

- Small text: “Both paths take less than 5 minutes to set up.”
- 14px, #555555, centered

[+ Rule 3] Both card buttons go to sign-up with the path attached (`path=scratch` or `path=existing`), so the branching question in onboarding opens pre-selected (the visitor can still change it).

14. PRICING + COMPARISON TABLE

- Background: #FFFFFF
- Padding: 100px 0

Section Label: “PRICING” — 12px, #23E598, uppercase, centered

Headline: “Simple pricing. Start free.” 40px, 700, #0A0A0A, centered

Subheading: “Free to start, upgrade when you're ready to scale. No hidden fees.” 16px, #666666, centered

[+ Rule 6] Directly under the subheading, a text link so the Free entry is never buried: *Just want to try it? Start Free →*

Billing Toggle: [Monthly] [Annually — Save 30%]

- Pill toggle, centered
- Annual selected: “Save 30%” badge in green
- Prices update dynamically when toggled

3 Pricing Cards. Layout: 3 columns, center card (Pro) slightly elevated/larger + shadow + “Most Popular” badge

Card 1: Free (Starter)

- Badge: none
- Price: ₹0 / $0 — “Forever free”
- Subtitle: “For creators just getting started”
- Feature list (6-8 items with ✓ checkmarks):
    o 1 connected page

    - 20 AI credits/day
    - Basic Discover & Create *[+ Rule 6: limited filters, 7-day content planner]*
    - 1 competitor tracking
    - 1 product in store
    - Community support
- CTA: “Start Free →” (outline button, not green — green reserved for Pro)

Card 2: Pro (Most Popular)

- Badge: “Most Popular” — green chip, top of card
- Card style: slightly larger, green border, subtle green glow
- Price: ₹499/mo (monthly) / ₹415/mo (annual, “₹4,988/yr”)
- Global: $9/mo / $7.50/mo annual
- Subtitle: “For creators serious about growth”
- Feature list:
    - Everything in Free, plus:
    - 3 connected pages
    - 300 AI credits/day
    - Full Discover & Create *[+ Rule 6: full filters, viral database]*
    - 10 competitor tracking
    - 30-Day Content Planner + Scheduling
    - Full Automation (3 active)
    - Unlimited store products
    - Email support
- CTA: “Start Pro Free →” (green pill, black text)
- **[+ Rule 6]** Under the plan name: **Recommended for most creators.** The card border is the neon green #23E598 at 2px.

Card 3: Elite

- Badge: none
- Price: ₹1,499/mo / ₹1,249/mo annual
- Global: $25/mo / $21/mo annual
- Subtitle: “For scaling creators and agencies”
- Feature list:
    - Everything in Pro, plus:
    - Unlimited pages
    - Unlimited AI credits
    - Unlimited automation
    - AI Auto-Conversations (unlimited)
    - White Label AI Resale
    - Priority support
    - Elite-only features (early access)
- CTA: “Start Elite Free →” (outline button)

[+ Rule 6] Anchoring and order. Elite is always shown at full size next to Pro with its price visible, so ₹1,499 anchors ₹499. Desktop order stays Free, Pro, Elite. Mobile stack order: Pro (highlighted) first, Elite directly under it, Free last, with the Start Free link at the top.

Below Cards

- Row: "✓ No credit card required · ✓ Cancel anytime · ✓ Instant access"
- 13px, #999999, centered

Comparison Table (below cards, collapsible "See full comparison ▾"). Full feature-by-feature table:

- Rows: every feature listed
- Columns: Free | Pro | Elite
- ✓ (green) / — (gray dash) / specific values
- Sticky header row when table scrolls
- Mobile: horizontally scrollable table

[+ Rule 6] The rows and values, from the Product Spec (explicit numbers, no vague wording):

Feature	Free	Pro	Elite
Connected pages	1	Up to 3	Unlimited
AI credits (Assistant and content generation)	20 / day	300 / day	Unlimited
Vyralify AI	Limited (basic Q&A)	Full (deep analysis, strategy plans)	Full + priority speed
Media upload in AI chat	3 / month	50 / month	Unlimited
Conversation history	Last 5	Unlimited	Unlimited
Niche selector	✓	✓	✓
New page setup wizard	✓	✓	✓

Sales analytics	Basic (total sales)	Full funnel analytics	Full + export
White Label AI Assistant resale	—	—	Exclusive to Elite
Support	Help Center	Email support	Priority support

15. FAQ

- Background: #F9F9F9
- Padding: 100px 0

Headline: “Everything you need to know.” 40px, 700, #0A0A0A, centered

Subheading: “Can't find your answer? [Contact us →]” 16px, #666666, centered (contact links to support)

FAQ Accordion (10 questions, expand/collapse on click)

- Each item: border-bottom 1px #EBEBEB, 20px padding
- Question: 16px, 600, #0A0A0A
- Answer: 14px, #666666, line-height 1.7
- Expand icon: + / − in green
- First item open by default

Questions:

1. **What exactly is Vyralify?** “Vyralify is an AI-powered toolkit for Instagram creators. It helps you build pages, discover viral content, create posts, automate DMs, and sell products — all in one platform.”
2. **Do I need an existing Instagram page to use Vyralify?** “No. Vyralify has a complete Page Builder for beginners starting from scratch — niche selector, bio generator, and a step-by-step launch guide. You can start with zero following.”
3. **Is Vyralify's automation safe? Will it get my account banned?** “Vyralify's automation is built to stay within Meta's official guidelines. We use rate-limiting and safe messaging patterns — the same methods used by tools like ManyChat, which millions of accounts use safely.”
4. **What AI model powers Vyralify AI?** “Vyralify AI is built on top of leading language models and fine-tuned specifically for Instagram growth — niche benchmarks, algorithm behavior, and content strategy. It's not a generic AI wrapper.”
5. **Can I use Vyralify for multiple Instagram pages?** “Yes. Pro supports up to 3 pages, Elite supports unlimited pages. Each page has its own analytics, automations, and store.”
6. **What happens when I hit my AI credit limit?** “You'll see a notification at 80% usage. At 100%, AI features are paused until the next reset. You can upgrade to Pro/Elite for higher limits or unlimited credits.”
7. **Does Vyralify work for all types of Instagram pages?** “Yes — we support 8 niche categories with 40+ sub-niches at launch: Business & Money, Self-Improvement, Health & Fitness, Fashion & Beauty, Cars & Automotive, Travel & Lifestyle, Entertainment, and Sports.”
8. **How does the Store & Commerce feature work?** “You get a link-in-bio storefront at vyralify.io/your-username. Add products, set prices, and share the link in your Instagram bio. Followers buy directly — Vyralify handles checkout, delivery, and tracking.”
9. **Can I cancel my subscription anytime?** “Yes. Cancel from your account settings anytime. Your plan stays active until the end of the current billing period.”
10. **Is my Instagram data safe?** “Yes. We only access the permissions you grant via Instagram's official OAuth. We never store your Instagram password and never post anything without your explicit permission.”
11. **[+ Rule 1] What does Vyralify need access to on Instagram?** “It reads your profile, posts, insights and audience data to power your dashboard and AI. Messaging access is used only for automations you set up and switch on. You see the exact permissions on Meta's login screen.”

16. FINAL CTA

- Background: #0A0A0A (dark)
- Padding: 120px 0

Headline: “Your Instagram business starts today.” 48px desktop / 36px mobile, 700, #FFFFFF, centered. “today” in #23E598

Subheading: “Build your page, grow with AI, automate your DMs, and start earning — free.” 18px, #A0A0A0, centered, max 560px

CTA Row: [Start Free →] [Watch Demo ▶]

- Same styling as Hero CTA
- Center aligned
- Margin top: 32px

Below CTA: “Free to start · No credit card required · Join 10K+ creators” — 13px, #555555, centered

Background Treatment

- Subtle centered green radial glow behind headline (low opacity, same as hero)
- Optionally: floating versions of the 3 product cards from the hero, very faint, blurred (15px) in the background — implied product presence without distraction

[+ Rule 1] The trust text here also carries the exact words *Free plan · No credit card required*. Watch Demo opens the same interactive demo as in the hero.

17. FOOTER

- Background: #0A0A0A
- Border top: 1px solid #1F1F1F
- Padding: 80px 0 40px
- **Layout: 5 columns**

Column 1: Brand (wider, 25%)

- Vyralify logo (white)
- Tagline: “The AI OS for Instagram Creators”
- 13px, #555555
- Social icons (20px each, #555555, hover: #FFFFFF): Instagram | X/Twitter | YouTube | TikTok
- Spacing below logo: 16px

Column 2: Product. Header: “Product” (12px, 600, #FFFFFF, uppercase, letter-spacing 0.1em). Links (13px, #666666, hover: #FFFFFF): Vyralify AI · Discover & Create · Page Builder · Instagram Automation · Store & Commerce · Pricing

Column 3: Company. Header: “Company”. Links: About · Blog · Careers · Contact · Press

Column 4: Resources. Header: “Resources”. Links: Help Center · Documentation · Creator Stories · Community · Status

Column 5: Legal. Header: “Legal”. Links: Terms of Service · Privacy Policy · Cookie Policy · Refund Policy

Bottom Bar (below columns, border-top: 1px solid #1F1F1F, padding-top: 32px)

- Left: copyright, 12px, #555555 — “© 2025 Vyralify. All rights reserved.” *[+ set the year automatically]*
- Right: tagline, 12px, #555555 — “Made for creators, by creators.”

[+ Compliance] Privacy Policy and a Data Deletion page must be reachable from every page (Meta requires them for Instagram app approval). *[+ Rule 3]* Add a Data Deletion link under Legal.

---

5. Responsive summary

Section	Desktop	Tablet	Mobile
Navbar	Full links + 2 CTAs	Logo + hamburger	Logo + hamburger
Hero headline	56px	40px	32px
Hero mockup	Tilted, full width	Straight, full width	Full width, no tilt
Hero floating cards	3 visible	2 visible	Hidden
Trust strip metrics	4 in a row	2x2	2x2
Problem cards	3 in a row	3 in a row	Stacked 1 col
Journey flow	Horizontal	Horizontal scroll	Vertical stacked
Spotlight sections	50/50 side by side	50/50	Stacked, visual first
Benefits cards	2x2 grid (3x2 with the 2 added cards)	2x2 grid	1 col
Pricing cards	3 in a row	3 in a row (compact)	Stacked, Pro highlighted
Pricing table	Full visible	Horizontally scroll	Horizontally scroll
Two paths	Side by side	Side by side	Stacked
Footer	5 columns	3 cols	2 cols + stacked

[+ Rule 1] Sticky mobile button. On mobile a full-width **Start Free** → bar (56px high, respects the device safe area) appears after the hero scrolls out of view and hides while the pricing section is on screen. Instagram creators are mostly on phones, so design and test mobile first.

Hand this document to the developer alongside the Vyralify_UIUX_Specification.md (internal product) and Vyralify_Product_Specification.md. Together these three documents define the complete Vyralify digital experience — website, product, and design system.

6. Technical, SEO, analytics and launch pages (additions)

Performance: largest content paint under 2.5s on mobile; no layout jumps; modern image formats at the right sizes; hero image preloaded and its space reserved, other images lazy loaded; the marquee and glow effects are CSS only; the tilt and animations use transform and opacity only. Pages that matter for search should be delivered as ready-made HTML, with the interactive parts (menu, demo, accordion, toggles, comparison table) added on top.

SEO: one H1 (the hero headline); logical H2 per section; unique title (about 60 characters) and description (about 155) per page; share image; FAQ and organization structured data; clean URLs, sitemap and robots file. Suggested URLs: `/`, `/pricing`, `/features/ai-assistant`, `/features/discover-create`, `/features/page-builder`, `/features/automation`, `/features/store`, `/faq`, `/privacy`, `/terms`, `/data-deletion`, `/refund-policy`, `/contact`.

Accessibility: visible focus, full keyboard use, descriptive alt text on every product screen, accordions, toggles, the mega-menu and the demo usable with keyboard and screen reader, and reduce-motion respected.

Analytics events

Event	When
cta_click (with location: nav, hero, hero-demo, paths-scratch, paths-existing, pricing-free, pricing-pro, pricing-elite, final, sticky)	Any Start Free, Watch Demo, Start Pro Free or Start Elite Free click
path_toggle (with path)	Who is this for? toggle used, or nav link For Beginners / For Creators
demo_open / demo_prompt_click / demo_action_click	Interactive demo opened, prompt chip selected, action button clicked
journey_step_view	A step is selected in Section 5
pricing_view / billing_toggle	Pricing section in view; Monthly or Annual selected
compare_expand	Comparison table opened
faq_open (with question)	FAQ item opened
signup_start / signup_complete (with path)	Sign-up begins and finishes
scroll_depth (25, 50, 75, 100)	Page scroll

Pages needed at launch: sign-up and sign-in (product onboarding), pricing page (same section with the comparison table open), Terms of Service, Privacy Policy, Cookie Policy, Refund Policy, Data Deletion instructions, contact or Help Center.

7. After launch: the free mini tool (Rule 7)

Why: a free, no-signup tool earns organic search traffic, lets visitors taste the product and turns them into qualified leads. It is the first growth experiment after launch.

Two candidates (both reuse features already in Page Builder, so the build is small)

1. **Free 60-Second Niche Quiz:** 4 to 5 quick questions, result is a recommended niche from the 8 launch categories with its opportunity indicator.
2. **Free Instagram Bio Generator:** the visitor enters their niche and goal and receives bio options.

Flow: the visitor uses the tool with no account. To see the result they enter an email or continue with Google. They are told the result will also be saved to a free Vyralify account. Their answers carry into onboarding (niche pre-selected, bio saved), so signup continues what they started.

Gate placement (to test): version A asks for email before showing the result (the rule). Version B shows the top result and asks for email to see the rest and save it. Measure both and keep the one with better signup and onboarding completion.

Rules

- A clear, unticked consent checkbox for marketing email, a link to the Privacy Policy and an easy unsubscribe. Collect only what is needed.
- Protect cost and abuse: rate limits, bot protection and cached results, because each use may call AI.
- Opportunity scores must be explainable; no promise that a niche will be profitable.
- Dedicated pages (`/tools/niche-finder`, `/tools/instagram-bio-generator`) with one H1, a short FAQ and example outputs; each ends with Start Free.
- Once live, add 'Free Tools' to the navbar and footer.

Measure: tool start rate, completion rate, email capture rate, signup to onboarding completion, and Free to paid by source.
