VYRALIFY — SOCIAL PROOF SECTION

FINAL STRUCTURE

Section Goal:

Immediately after the Hero, establish trust, real-world activity, and measurable ecosystem scale — without making the section feel like a generic testimonial block.

1. EYEBROW

2. HEADING

Creators, Clippers & Brands — Building With Vyrallyfy

No subheading.

3. CREATOR / BRAND HANDLE MARQUEE

Label above marquee:

Building with Vyrallyfy

A horizontally scrolling row of compact profile cards.

Each card includes:

- PFP / avatar
- @username / Brand name
- Small category chip:
 - Creator

 - Brand

- Real result / activity

Examples:

@pagehandle

Creator

\$4,120 in sales

@clipperhandle

Clipper

254K views

Brand Name

Brand

12 campaigns

@creatorhandle

Creator

VISUAL DIRECTION

COLOR SYSTEM — LOCKED

WHITE → Primary

BLACK → Secondary

GREEN / YELLOW → Accent

So this section should be white-first, NOT the black/green-heavy version we generated earlier.

Style

- White / off-white main background
- Black typography
- Green/yellow used selectively for:
 - eyebrow
 - accent words
 - metric highlights
 - category chips
 - tiny status indicators
- Thin borders
- Rounded but not overly bubbly
- Premium SaaS aesthetic
- Minimal animation
- Clean whitespace

Reference vibe: CreatorFlow-style clean white + black + green/yellow, adapted into Vyrality's own identity.

Visual should be the strongest part:

A Vyrallyfy Discover feed showing:

- 🔥 Trending content

-  Winning formats
-  Clipping opportunities
-  Campaign reward rates
- [Clip Now](#) →
- AI recommendations

So clipping is clearly visible here, rather than randomly appearing only at the end.

03 — Get Paid

04. CAPABILITY ROW

Below the big UI, dynamically change a small row of capabilities based on the selected category.

Example for Discover:

Viral Content · Trending Formats · Winning Hooks · Competitor Insights ·
Clipping Opportunities

Example for Earn:

Clipping · Campaigns · Creator Rewards · Digital Products · Affiliate · Wallet

These should be small text/pills, not six more giant cards.

05. PRODUCT ECOSYSTEM LINE

After the interactive showcase, add one simple visual:

BUILD → DISCOVER → CREATE → PUBLISH → GROW → EARN

With subtle connecting lines.

This reinforces that these aren't random tools — they work together as one system.

06. CLOSING MESSAGE

One platform. Every part of the journey.

Build your page. Find what works. Create. Grow. Clip. Earn.

Got Questions? We've Got Answers.

Subheading

Everything you need to know about Vyrallyfy, clipping, campaigns, pricing, and getting started.

FAQ ACCORDION

What is Vyrallyfy?

Vyrallyfy is an all-in-one platform for building, growing, and monetizing your content presence. Discover viral content, create with AI, manage your pages, track performance, find campaigns, clip content, and earn — all from one place.

Do I need an Instagram page to use Vyrallyfy?

No. You can join campaigns and start clipping even if you don't have your own page. If you want to build a page, Vyrallyfy gives you the tools to start and grow it too.

Can I use Vyrallyfy just for clipping and campaigns?

Yes. Discover campaigns, find content worth clipping, create and publish your clips, submit them, and track your performance and earnings — without needing to build your own page.

Is clipping free?

Yes. Campaigns and clipping are free on every plan. You don't need a paid subscription to participate in eligible clipping campaigns.

How do I get paid from clipping?

Join a campaign, create and publish clips according to its requirements, and submit them through Vyrallyfy. Your eligible performance is tracked and verified, and approved earnings are made available for payout.

What's included in the Free plan?

The Free plan gives you basic platform access, limited AI credits, basic growth and content tools, community access, and full access to campaigns and clipping.

What's included in Pro?

Pro gives you everything in Free, plus higher AI usage, advanced analytics and Growth Intelligence, Content Intelligence, monetization tools, White Label AI, and priority support.

What can Vyrally AI help me with?

Vyrally AI helps you come up with content ideas, hooks, scripts and captions, understand your performance, identify opportunities, and figure out what to do next.

Can I manage multiple Instagram pages?

Yes. Vyrally is built to help you manage and grow your pages, including content planning, publishing, analytics, and performance tracking.

Can I cancel my Pro subscription anytime?

Yes, if self-serve cancellation is enabled on your billing setup. You'll retain access through the end of your current billing period.

How are clipping views and earnings verified?

Campaigns define the requirements for eligible performance. Vyrally tracks submitted content and performance, verifies eligible views, and excludes invalid or artificially generated traffic before earnings are approved — exactly as structure mein disclaimer add karke final version:
